*Purchase Blickrylic paints at DickBlick.com

TEMPLATE GUIDE

Using Printable Tracing Templates

1. Print your template and tape together using line guides (the template is sized to fit a *12x24 canvas).

When printing:

- Ensure the Scale is 100% (in More Settings) and that Fit To Page is off.
- Check that the preview looks correct before printing.

*You can adjust to a canvas size of your choice by hand drawing out the design to fit.

2. Use graphite paper to transfer design to canvas (watch video for step-by-step instructions)
